

Oven Roasted Tomatoes

From Sundown Foods USA, Inc.

Our Oven-Roasted Tomatoes get their unique flavor and texture from our slow-roasting process. Our specially made walk-in ovens help to bring out the sweetness of the tomato while creating a wonderful texture that is unlike any other! We start with fresh tomatoes that we hand sort for quality. The tomatoes are then cut and placed into our ovens to roast. We never use sulfites or preservatives to ensure our customers get the natural flavors of our product!

We offer our tomatoes in a variety of pack sizes and also give our customers the ability to customize the packaging to best suite their needs!
